Remind (b) (7)(C), (b) (7)(D) to delineate:

Fugitive emissions for SO₃ - how does this affect the leaks at CIP/HIP

What is 60 tons for "plant" mean?

Have they violated consent decree by leaks?

How are fugitives calculated?

Do fugitives count as leaks that are required in semiannual deviation report?

Basic knowledge re: enviro contact as regards the CAA

Has anyone from EPA dealt with Dupont in LA?

Who is over consent decree enforcement?

Regarding the 2014 permit mod request, does LDEQ have to advise R6 of changes?

What is the primary violation of 2011-2012 emissions, if any?

Thank you,

(b) (7)(C),
